About us

Torry Harris Integration Solutions (THIS), founded in 1998 and headquartered in New Jersey, USA, is a global leader in digital transformation. As a trusted advisor to enterprises worldwide, Torry Harris excels in API strategy, integration, and digital ecosystem development. With 25 years of expertise, we empower businesses to extend their digital reach and create value through innovative technology solutions. Torry Harris has offices in the USA, UK, Ireland, France, Austria, Germany, and UAE, with development centers in Bangalore, India.

Introduction

The document provides essential information on the correct use of Torry Harris Integration Solutions (THIS) logos, its brand colors, official font families etc. It is extremely important to understand and imbibe the true spirit of our logo and respect the usage of the logo and corporate colors in its prescribed manner in order to reinforce the same message in all communication that we undertake going forward.

If you have any questions not covered in these guidelines, please contact **marketing@thbs.com**.

Remember- This document is confidential.

Core Values

Integrity

We uphold openness and consistency in our thoughts, words, and actions.

Passion For Excellence

We relentlessly pursue excellence in everything we do.

Respect

We embody respect, sensitivity, and responsiveness in our interactions.

Customer Obsession

We are deeply committed to our customers' success and go above and beyond to achieve it.

Pride

We are Torry Harris.

Our Logo

Everything in the natural world is **“connected”.** Digital ecosystems are inspired from natural ecosystems formed by connected communities. In commerce, each business in a digital ecosystem interacts with another through “Integration”, causing a network effect that offers unlimited possibilities. Our logo, in vibrant blue, represents such a connected network, a digital ecosystem. This logo is a visual statement of our intent and commitment to our chosen space of **integration** to facilitate digital business. In all future communication, we will refer to this symbol as the **‘ecosystem’.**

The name **“THIS”** written in bold communicates our strong resolve and ambition to move forward. The color blue in the logo symbolizes stability, strength, trust, dependability and loyalty, exhibiting the strong and trusting relationships forged by the company with all stakeholders. The secondary colors peach and yellow symbolize energy, innovation and optimism, reflecting the spirit of a young and vibrant organization.

Logo Overview

"THIS" is our brand identity.
It has **twelve different variants**,
and the usage is dependent on the
requirement. The ecosystem gives
our logo a modern look...
For interactive experiences and
videos, logo is animated whereas in
all other mediums static logo is used.

Logo Grid

Designing a logo and a visual identity goes way beyond the free form and artistic side of what most people think. There is all the rational part including proportions, scaleability optical adjustments and reproduction that has to be thought in order to create an efficient and well design logo. The visual design guidelines will provide this information to ensure that the brand is used correctly.
Here we want to illustrate the construction or guidelines of our logo.

Clear Space

We've defined an exclusion zone that stops other graphic elements interfering with the Torry Harris Integration Solutions logotype and make sure the logo is easy to read. Proportions, space and size relationships of all blocks have been carefully developed and must not be altered, redrawn, embellished or recreated in any way. An important part of maintaining a consistent presentation is keeping a clear space around the logo from other text, graphics or illustrations. Crowding the logo detracts from its legibility and impact.

Legibility

The logo should never be too small to read.
It is not recommended to use the logo at less than 20mm or 60 pixels in width.
The Torry Harris Integration Solutions favicon graphic is linked with the website: it is a smaller representation of the brand for the browser and for the mobile interfaces. Take into account that the favicon is not the brand logo and should never replace the logo.

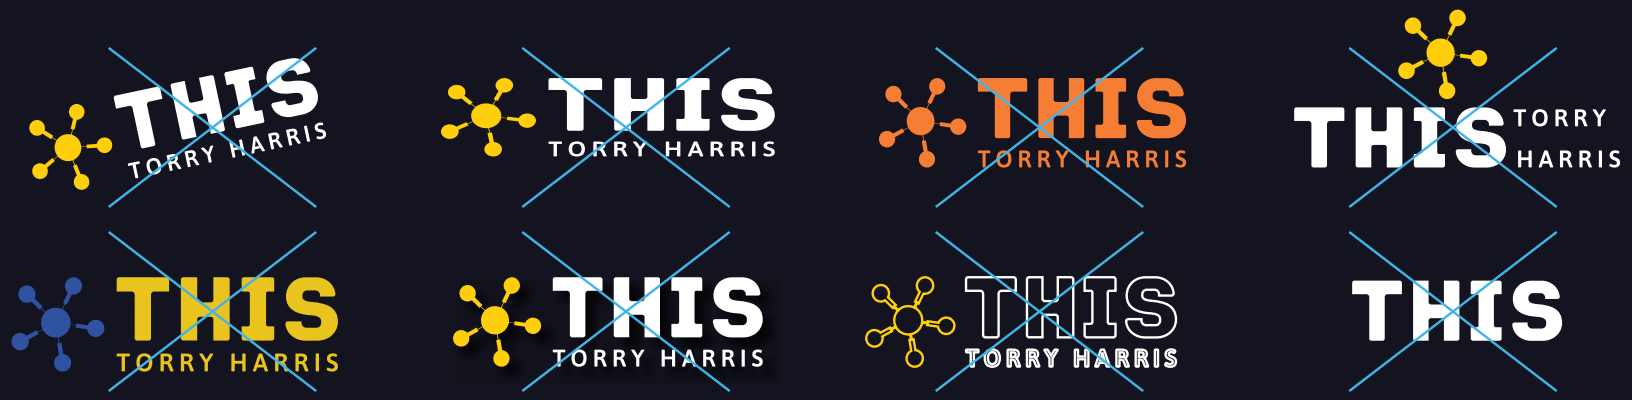
Incorrect Usage

The logo must be used as is and not be altered in any way; this means that you **MUST NOT:**



- Change the logo's orientation or rotation.
- Change the logo's colors.
- Display the logo with colour combinations previously specified.
- Make alterations to the logo's text.
- Add an outline to the logo or display the logo as an outline.
- Crop the logo in any way.
- Disproportionately scale the logo.
- Attempt to recreate the logo.
- Display the logo in a configuration not previously specified.
- Add special effects to the logo.
- Display other elements within the logo's designated clear space.

Logo on photos

Care must be taken to create well balanced and considered compositions: photography is a key part of the identity and the use of color should always feel complimentary to the image. When placing the logo over photography please choose a pale area of the image to maintain sufficient stand out.

Content Guidelines

1. Content purpose

- Ensure content aligns with Torry Harris' brand voice, positioning and business goals.
- Focus on simplifying technical concepts for a broad audience, from industry experts to non-technical stakeholders.
- Drive engagement while maintaining professionalism and clarity.

2. Tone and voice

Tone: Professional, clear, and approachable.

Voice: Confident, concise and informative. Avoid technical jargon unless required.

Do:

Use clear and concise language.

Write in an active voice for better readability.

Be straightforward with no fluff or filler.

Don't:

Use flowery or exaggerated language.

Use overly complex sentences that reduce clarity.

Use buzzwords like "cutting-edge," "unveil," "foster," etc.

3. Grammar, style & formatting

Sentence case

Use sentence case for all headings, titles and subheadings.

Example: *"How to improve API integration" instead of "How to Improve API Integration."*

Punctuation

- Avoid excessive exclamation marks unless appropriate for certain campaign content.
- Avoid full stops in listicles or bullet points.
- Use serial commas for listicles
  Example – *We offer integration solutions, platform models, and legacy modernization.*
- Use double quotes (" ") for direct quotes and single quotes (' ') for quotes within quotes.
  Example – *XYZ said, "The report clearly states, 'API integration is essential.'"*
- Always place periods and commas inside quotation marks
  Example – *"Our solution is flexible," said the developer.*
- Date format – ***MM DD, YY*** – December 17, 2024

Style

- **Headings and subheadings:**
  Keep it short, actionable and specific.

- **Paragraph length**:
  Aim for 2–3 sentences per paragraph for easy readability.

- **Bullet points**:
  Use bullets for lists, features or highlights to improve readability.

- **Acronyms and abbreviations:**
  Spell out acronyms on first use, followed by the abbreviations thereafter.
  Example – *Global Capability Centers (GCC) are gaining momentum. GCCs offer scalability for enterprises.*

4. Content structure

1) Blog Posts

Introduction: Summarize the core topic and address user needs immediately.

Body: Break the content into sections with clear headings. Use data, examples and quotes where possible.

Conclusion: Provide actionable takeaways or a summary of the key message.

CTA: Add relevant calls to action where necessary.

2) Case studies

Follow the Who, What, How, and Results structure:

Who: Client/industry overview.

Body: The specific challenge.

How: Torry Harris' solution and approach.

Results: Tangible benefits, such as reduced costs or improved efficiency.

3) Social media content

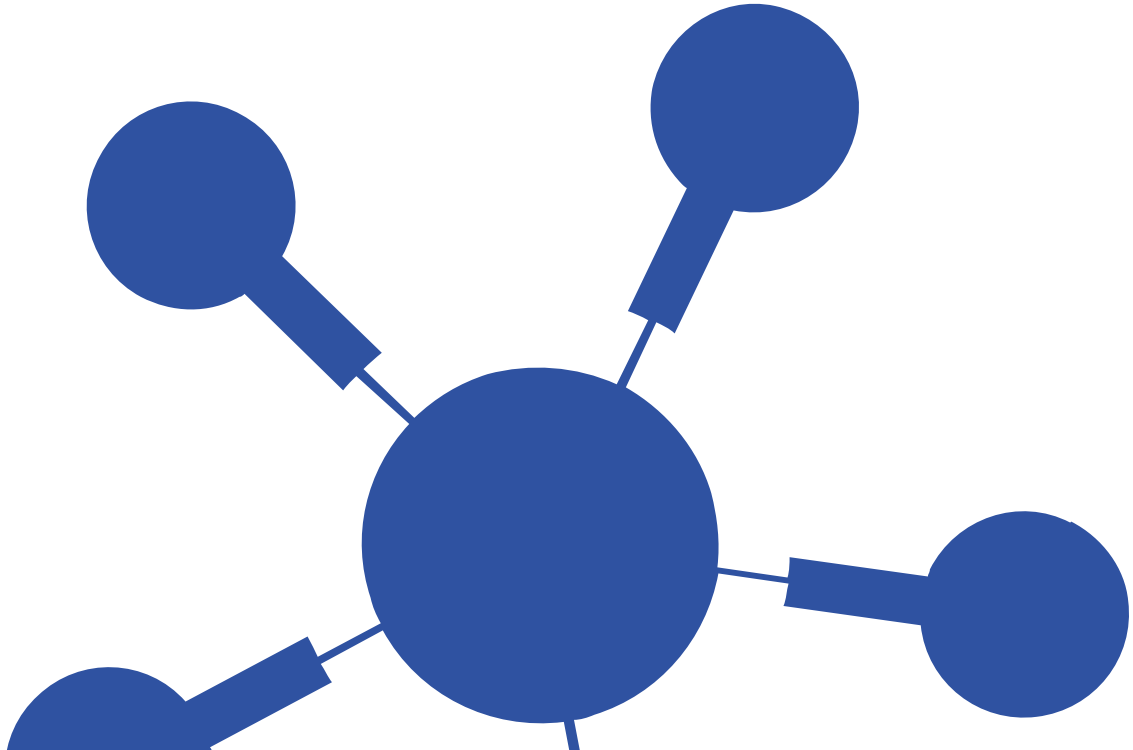
- Short and clear with a maximum focus on:

  Value: Highlight benefits and outcomes.

  Engagement: Use questions, polls, and visuals.

- Preferred formats:

  LinkedIn posts, carousels and infographics.



5. Language specifics

- Use **American English** consistently.

  - Spelling examples:

  Color (not colour)

  Custimize (not customise)

  Analyze (not analyse)

  Center (not centre)

  Program (not programme)

  - Vocabulary examples:

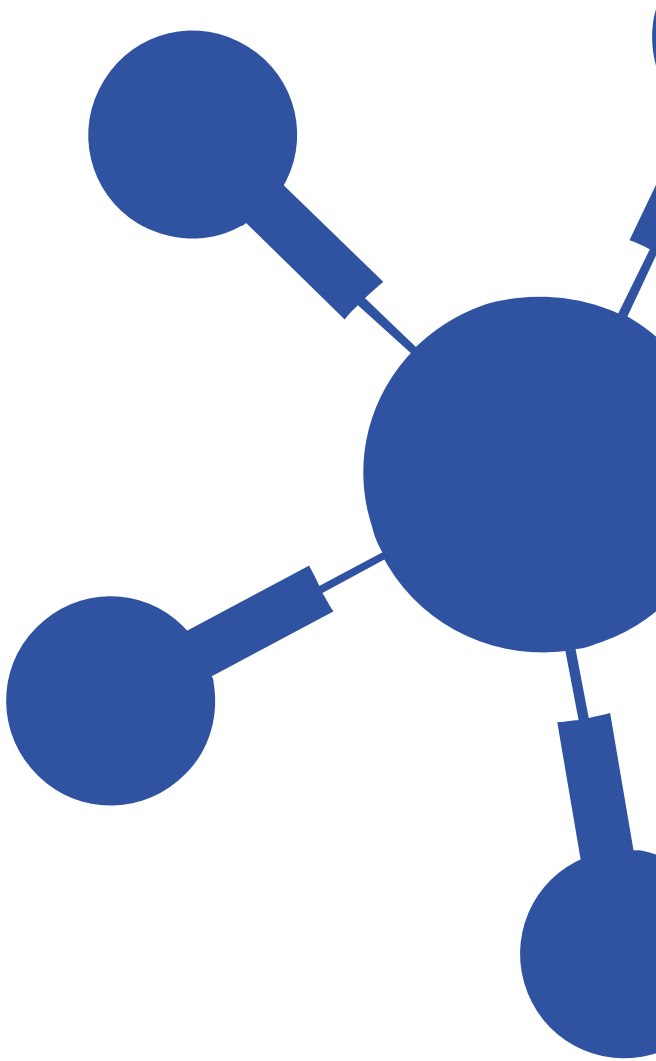
  Elevator (not lift)

  Server (not host)

- Avoid redundant phrases or cliches:

  - Replace “cutting-edge technology” with “innovative API solutions.”

  - Focus on **data-backed content** with statistics from reliable sources like **Gartner, Forrester or McKinsey.**



6. SEO and keyword usage

- Use target keywords naturally (5-6 times per blog).
- Prioritize user-friendly content over keyword stuffing.
- Include:
  - **Meta title** (under 60 characters).
  - **Meta description** (150-160 characters).
  - Subheadings for structure.

7. Examples for reference

Correct Usage

- "Torry Harris offers digital transformation solutions that drive efficiency."

Incorrect Usage

- "Torry Harris unveils cutting-edge solutions that are crucial for digital landscapes!"

Thank you
